

CALL FOR PAPERS

Ninth Annual

Undergraduate Research Conference on Applied Computing

**Zayed University
Dubai, UAE**

April 26 – 27, 2017

The 9th Annual Undergraduate Conference on Applied Computing (URC 2017) aims to provide a forum for undergraduate students to present their research ideas and interact with other young researchers from educational institutions across the Arab world, expert faculty, and leaders from the IT industry. So if you are an undergraduate student working on a final year project in any computing field, you are encouraged to submit one-page abstract for a lightning talk, mobile app for humanitarian aid, live demo, or poster presentation. All submissions will be reviewed by expert faculty and feedback provided to authors. In addition to student presentations, the conference program will feature invited presentations from academia and industry. Join us to present your project and expand your professional network.

Conference Format

Students are welcome to present their research projects in one of four tracks. You will have a chance to polish your public speaking skills, get published in the ebook of abstracts, and get a chance to win one of the best demo or presentation awards.

- **Lightning Presentations:** present your research project in a short oral presentation style.
- **Mobile apps for humanitarian aid:** present the design and functionality of a novel app for humanitarian aid.
- **Live Demos:** present a novel application, system or tool you have fully developed – live demo of how it works.
- **Poster Presentations:** present your project in an exhibit style setting with a poster.

Registration Fee

The registration fee is 150 AED and includes admission to all sessions, a copy of the ebook of abstracts, meals (breakfast, lunch, and coffee breaks), and a certificate of participation.

Conference Proceedings

Abstracts will be published in the URC2017 ebook of abstracts to be available online at the time of the conference.

Submission Guidelines

Prospective authors are invited to submit a one-page abstract describing their final year project or on-going research project work. Please follow the following guidelines:

- All submissions must be written in English.
- Use the template available on the conference website for your submission.
- You may have one or more co-authors, but the first author must be an undergraduate student.
- All submissions must be made online. Please check the conference website (www.urc.ac) for further instructions.

Important Dates

Abstract Submission:	February 15, 2017
Author Notification:	March 9, 2017
Final Submission:	March 22, 2017
Pre-registration:	March 27, 2017
Conference:	April 26-27, 2017
